

New Game Release: Best of Luck, 20-line, 5 reel slot.

Featuring lucky symbols from around the world, such as horseshoes, lucky pennies, wishbones and rabbit's feet, this slot embodies the essence of good fortune. But, it does much more than that. Best of Luck introduces a new feature which has the potential for some incredibly huge wins. Rather than awarding plain old free spins, Best of Luck awards one of 6 different bonus rounds on each free spin. Win the same bonus round 3 times during a set of free spins and you'll be awarded an additional 3 free spins. Hit 4 or 5 triggering icons to increase the multiplier and number of free spins, for even bigger payouts and a greater chance of winning more spins.
